DETAILED ACTION

Reasons for Allowance

1. Claims 1-15 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The present invention is directed to a data backup system that is activated by clients for backup of their data contained on a central computer such that a data backup of the client data to be saved is transferred from the central computer to the client computer and is saved thereon.

Claims 1, 4, 7, 10 identify the uniquely distinct feature of “transmitting said data backup to said client computer for onsite backup of internet-based data on said client computer and saved on said client computer”.

The closest prior art, Hubacher et al. (U.S. Patent No. 6,571,280), shows a substantially similar method for client sided backup and redundancy. Although Hubacher teaches use of a backup IFS driver for determining the location of backed-up files, Hubacher et al. fail to anticipate or render the above-cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.
